EUTHANASIA BY INJECTION— NOVEMBER – MCHENRY COUNTY

The Illinois Animal Welfare Federation presents *Euthanasia by Injection* training for animal shelter and animal control workers. This workshop meets the training requirements for the Certified Euthanasia Technician license in the State of Illinois. It is also approved training in Kentucky, Ohio, Tennessee and Wisconsin. **Registration is limited to those working in companion animal welfare and control.**

Euthanasia means a humane and stress-free end of life for the animals in shelter care. The IAWF intends to provide those workers who must euthanize the proper training in a supportive and compassionate environment to attain that desired result.

In this workshop, you'll learn about anesthetics and legend drugs, anatomy, proper restraint, injection techniques, equipment, worker safety, legal requirements and verification of death. Instruction will be through lecture, discussion, videos, and hands-on lab work. You'll watch and perform animal euthanasia.

Tuition is \$300; organizational members of the IAWF pay only \$150. Your tuition covers a meal both days and 12 hours of professional classroom and hands-on training. You also receive a comprehensive workbook, materials, and, upon passing the workshop exam, a certificate verifying you successfully completed this training.

Registration Deadline: November 14, 2022

No pictures, video or audio taping of the workshop is allowed without prior consent of the IAWF.
